WHIPPED TILL WIFE FAINTED

Another Kuklux Outrage
Reported From Trigg
County.

N. HESTER WHIPPED.

Same Gang That Perpetrated
Similar Outrage on Chas.
Edwards Suspected.

Another Trigg county outrage is reported from Long Hollow, that is even worse than the one reported in the last issue. Nathan Hester, a respectable farmer about 50 years old, was a member of the association two years, but last year sold his crop outside. This year he was notified that he could not thresh his wheat, but he hauled it several miles to a threshing machine and finally got it threshed.

He has planted a small crop of tobacco, his plants not being molested. Monday night of last week a mob of about 25 men, wearing masks of false faces, surrounded his house about midnight and the leader from behind a large tree demanded that he come out. Hester, partially dressed, wearing only one man, went out and was covered with a gun by a man who was behind the corner of the house and others came from behind the house and seized him. He was taken to a stump in the corner of the yard and flogged with a rawhide. His wife is subject to heart trouble and attempting to follow her husband fainted and fell unconscious on the porch, or inside the door. After he was whipped, Mr. Hester was released and one of the mob kicked him as he started back to the house. His wife was revived with great difficulty, it being necessary to

apply a mustard plaster to restore her to consciousness. It is supposed that the whipping was done by the same gang that whipped Charlie Edwards about a month ago and ordered him to leave the neighborhood under pain of death. Suspecting that Edwards would visit his home about ten days ago the mob organized and lay in wait for him several nights.

DYNAMITE USED BY RIDERS

Thos. Menees' Threshing
Outfit Blown Up By
Them.

Adams, Tenn., July 16.—The threshing outfit of Thomas Menees, of Cedar Hill, was completely destroyed at an early hour this morning by a band of "Night Riders." Mr. Menees has been threshing wheat in this vicinity since the beginning of the harvest and is what is commonly known as a "hill billy." The members of the Planters' Protective Association would not permit him to thresh their wheat and he has been taking precautions to prevent the destruction of his outfit.

Last night Mr. Menees left his machine in front of the residence of J. B. Woodruff, preparatory to threshing his wheat the next morning. He anticipated trouble of some kind and placed three of the crew on guard. About 3 o'clock this morning forty men came up, overpowered the guards and carried them away. Dynamite was placed in the boiler of the engine and in the separator and touched off. Residents of the home of Mr. Woodruff state that there were four explosions and the machine was completely demolished.

For a mild, easy action of the bowels, a single dose of Doan's Regulate is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

MIDSHIPMAN FAULKNER GOLDTHWAITE KILLED IN TARGET PRACTICE.

Case of Powder Explodes and Twenty-Three Are Blown
Up In Turret of Battleship Georgia,
Monday Morning.

NINE OF THEM ARE DEAD AND TWO OTHERS MAY DIE.

Hopkinsville's Gallant Young Officer Had Only Seen
Three and One-Half Months of Actual Service
Since Graduating.

Boston, July 15, a terrible accident occurred at 10 o'clock to-day on the battleship Georgia, which killed 2 officers and 7 sailors and injured 1 officer and 11 sailors. The Georgia arrived here at 4:45 with the dead and injured.

The accident occurred shortly before noon while the Georgia's crew were at target practice off Barnstable in Cape Cod bay. In some manner, as yet unexplained, two bags of powder became ignited and in the terrific flash that followed the entire turret crew, consisting of three officers and eighteen men, were enveloped in fire and received horrible burns, one officer and five men dying before the ship reached port, the victims of the accident are:

THE DEAD.

LIEUT. CASPER GOODRICH, New York.

WILLIAM J. THATCHER, Chief Turret Captain, Wilmington Del.

FAULKNER GOLDTHWAITE, midshipman, Kentucky.

W. J. BURKE, ordinary seaman, Quincy, Mass.

G. G. HAMILTON, ordinary seaman, South Framingham, Mass.

W. H. THOMAS, ordinary seaman, Newport R. I.

GEORGE E. MILLER, ordinary seaman, Brooklyn N. Y.

WILLIAM S. PAIR, ordinary seaman, Brooklyn, N. Y.

E. G. WALSH, seaman, Lynn, Mass.

THE INJURED.

Midshipman James T. Cruse, Nebraska, and eleven men.

Lieut. Casper Goodrich, son of Rear Admiral Goodrich, commandant of the New York navy yards, and Midshipmen Faulkner Goldthwaite and James T. Cruse, were operating the eight-inch guns.

The loader stood at the breech of one of the eight-inch guns, all ready to insert the charge. At this in-

stant the turret was seen to be smoky and two men standing near the loader saw a black spot on the bag, indicated that the charge had ignited and was smouldering. The loader discovered the spot at the same instant and threw himself forward on his face, at the same time shouting a warning to his turret mates.

The other men who had seen the spot were Eich and Hansell and they also threw themselves on the floor of the turret. Before the other men in the turret could understand what caused the loader's cry of warning, there was a blinding flash as the burning powder exploded. Flames, smoke and noxious gases filled the little superstructure, in which more than a score of men were confined. As the powder was not confined, there was no report, nor did the vessel suffer any injury, but every nook and cranny of the turret was filled with flames.

Six of the victims, including Goldthwaite, died before reaching land and three died in hospital. Lieut. Casper Goodrich, one of the injured, was appointed to the navy from Connecticut in September 1897. He has been attached to the Georgia since November, 1903. He is a son of Rear Admiral Goodrich, now in command of the New York Navy Yard.

Midshipman Cruse is a son of Maj. Thomas Cruse, now Chief Quartermaster at Omaha, Neb., and was born in Owensboro, Ky. His father, also a native of Kentucky, is a graduate of West Point, and one of the most competent officers in the Quartermaster's Department. Four years ago when he was ordered to Omaha, he secured an appointment from Nebraska for his son to the Naval Academy.

Midshipman Goldthwaite, who died as a result of his injury, was born in Calvert, Texas, on May 24, 1883, and entered the naval service as a Midshipman from the State of Kentucky on June 8, 1903. After serving the full four-years' course at the Naval Academy, he was on March 1, 1907, ordered to the United States Battleship Georgia.

The young man graduated near the top of his class, and gave promise of being one of the navy's star officers.

He was appointed by Representative Allen in the closing days of his last term.

FILLED WITH SORROW.

The City Shocked and Saddened By The News.

The first telegram received was addressed to "Pastor of the Baptist church," of which Midshipman Goldthwaite was a member. This was received by Rev. M. A. Jenkins and at once taken to Mrs. Goldthwaite. This was followed by an official telegram to Mrs. Goldthwaite stating that her son's injuries were serious and that a little while another saying "Your son is dead." None of Mrs. Goldthwaite's children was at home when the news came. Her younger son, Tom, was with an engineering corps in Indiana. The older daughter, Miss Mary, was visiting relatives in the country and Miss Jean, the younger, was visiting

A MUSHROOM
HAT

A BEAUTIFUL GOWN

A marked feature of the present season is the novelties which are appearing in the realm of fashion. Conspicuous among these novelties may be mentioned the Japanese outline of the bodice, which is permitted to stamp its popularity upon the blouse, notably upon the lace blouse which looks very well, indeed, under such conditions. I would quote a capital example made in a combination of thick white calypso striped with lines of black velvet ribbon over a fine lace front, and destined to be worn with a fine lace skirt bordered with coarse lace—a very good dress altogether.

Besides this, I would observe the addition to the lace blouse of more ordinary detail, of braces of ribbon, short wide sleeves of ribbon, and a belt with sash ends of ribbon. Such ribbon could be chine with a satin border. This needs a slim figure for its best success, and those who are at all stout should trust themselves to the simpler belts of ribbon, kid, or leather, or striped gait. This last is comparatively new, and is to be met with the buckle covered to match. The elastic belt continues to receive its supporters, and shines beneath the influence of gold and silver. It may also be found faced with velvet, and only under one condition could I be induced to recognize its plausible charms.

But to proceed with my list of trifles. I comment with joy on the continued favor shown to the lawn and linen collar, recognizing that the former daily assumes a finer aspect and is traced with finer stitching, no minute details of design seeming to be too intricate to do it service. For the prodigal, summer blouses are made entirely of such luxuries as this finely embroidered lawn, costing no

less than eight guineas; and perhaps their charm is only discernible to the expert, and line women out of ten would be as content with the linen batiste blouse, bearing hem-stitched tucks intersected with small satin-stitched spots, and to these latter I confess I am much addicted, finding they look equally well with lace coats or cloth or serge.

There are some pretty new models in lace coats, some taking the straight Japanese outline and being covered with silken braid, others being in the paillet shape with a belt at the waist and an embroidered lawn collar round the neck, and a few black tassels on the front, and the sleeves striking a decorative note. The most extravagant form of the lace coat, however, is embroidered over with flows silk, and bears a thickly netted silken fringe all round it.

The three-quarter coats, fitting almost tightly, and bearing no fulness in the skirt, are suggestive of the Directorate period with their large buttons and the sleeves full on the top, but the absence of fulness on the skirt contradicts this impression to some extent.

All the best of the new skirts are cut on the cross, with a seam down the center, and fitted tightly round the hips, while their decoration is either braid or flatly-stitched bands upon the hem and above it. Besides this, the trimming of the lace is embroidered, and our taste for it grows apace.

I have just seen an advance sample of summer millinery, entirely made of embroidered batiste, this being worked in white on a blue ground, and a crown, and a mushroom-shaped brim, and simply trimmed with a scarf of colored crepe de chine. I can look forward to meeting it again with much pleasure.

LATEST IN SHIRT WAISTS

It is the recognized fact in Europe that American women are the most extensive wearers and the keenest critics of the shirt-waist, and for this reason they are constantly on the alert for new designs in that particular article of apparel. The tailor-made shirt-waist is, like all modern measure garments, distinguishable for its smartness of cut and fit, and more and more are women appreciating this fact. The two strong points in favor of the shirt-waist are the multitude of shades and designs and cloths in which it may be obtained, and the comparative cheapness of this indispensable article of dress. Freshly laundered, what looks fresher or more attractive than a well-made, well-fitting shirt-waist? The shirt-waist worn by the lady to the right in our illustration above is made in the gauze cambré, which, being pure wool, is absolutely unshrinkable. Other good qualities of the goods and which should be sought for in a garment of this kind are the smooth, clean surface which are retained even after much wear and many

washings and the happy knack of neither creasing nor crushing. This quality of cambré comes in small checks and other neat effects which set well with plain coat and skirt materials, and which like so many of the shirt-waists, is made with ordinary collar band, although this may be changed to suit the individual taste.

In the central figure of the illustration is displayed a waist made of cotton material which is exceedingly smart in its effect. It is of white body ground, patterned with blue stripes. Japle is a new but very popular material for shirt-waists. In fact it is so durable and so desirable from every standpoint of the shirt-waist requirement that it is being more and more used. Japle is a material made of Egyptian cotton and silk, and has a pretty silky appearance which it retains to the last. One of these Japle waists is sketched in our illustration and is the one to the extreme left. The shade is a delicate mauve with a little star-shaped spot in the same color.

NATURE'S ESSENCE.

Extracted From Forest Plants.

Nature's laws are perfect if we obey them, but disease follows disobedience. Go straight to nature for the cure, to the forest: there are mysteries here that we can fathom for you. Take the bark of the black-cherry tree, the root of mandarin, stone root, queen's root, bloodroot and golden seal root, make a scientific, non-alcoholic extract of them with just the right proportions and you have Dr. Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this vegetable extract and alterative of the greatest efficiency.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL, and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

The refreshing influence of the extract is like Nature's influence—the blood is purified and enriched—the vital force of the body brightens and their increased activity consumes the tissue rubbish which has accumulated in the system. Doctor Pierce, the founder of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a physician of large experience and prac-

tice, was the first to make up an alterative extract of native medicine roots, WITHOUT A PARTICLE OF ALCOHOL, which purifies the blood and tones up the stomach and the entire system in Nature's own way. The Golden Medical Discovery is just the tonic for liver and spleen you require when recovering from a hard winter, or a summer of heat and malarial fever. No matter how strong the constitution the stomach is apt to get out of order, now and then, and in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to cleanse the blood from the body, and so cures liver and kidney troubles. If you take this NATURAL BLOOD PURIFIER AND NERVE TONIC you will assist your system in manufacturing new day a just, more vigorous, strong and forceful. Dr. Pierce's Golden Medical Discovery is the only one of the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle, leaving the great laboratory at Buffalo, N. Y., which cures in Nature's own way, not only does it STAND ALONE in respect to the only tonic and restorative which absolutely contains no alcohol.

"I was taken with a severe cough, weakness in my back, a glimmer over the eyes, bad breath, and finally I was out of order," writes H. Gault, of 125 South Pennsylvania, Kansas. "I felt altogether, did not care for anything, had no life, was tired, weary, and appetite very poor. I read Dr. Pierce's Golden Medical Discovery and went right away and purchased two bottles of his Golden Medical Discovery, and before I had taken all of one bottle I felt the vitality of the body begin to return and their increased activity consumed the tissue rubbish which had accumulated in the system. Doctor Pierce, the founder of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a physician of large experience and prac-

Dr. Pierce's Golden Medical Discovery cures bad, foul stomach and constipation, and is the only one of the one medicine for stomach, liver and blood disorders that has the ingredients printed upon the wrapper of every bottle, leaving the great laboratory at Buffalo, N. Y., which cures in Nature's own way, not only does it STAND ALONE in respect to the only tonic and restorative which absolutely contains no alcohol.

There is more Catarrh in this section
of the country than all other
diseases put together, and until the
last few years was supposed to be
incurable. For a great many years
doctors pronounced it a local disease
and prescribed local remedies, and
by constant failing to cure with local
treatment pronounced it incurable.
Science has proven catarrh a constitutional
disease and therefore requires constitutional treatment.
Hall's Catarrh Cure, manufactured
by F. J. Cheney & Co., Toledo, Ohio,
is the only constitutional cure on the
market. It acts internally and
in doses from 10 drops to a teaspoonful.
It acts directly on the blood
and mucus surfaces of the system.
They offer one hundred dollars for
any case it fails to cure. Send for
circulars and testimonials.

BOND DEAL SET ASIDE

Another Sale Will Be Held
and Only \$50,000
Sold.

ANOTHER SALE LATER

The Money Will Be Used In
Building New Roads as
Soon as Available.

The Fiscal Court met Tuesday and
formally abrogated the contract of
E. H. Rollins & Sons, Chicago, for
the purchase of \$100,000 of five per
cent. turnpike bonds, and after discussion
of the matter decided to make two issues of the bonds.
Thereupon it was ordered that only
\$50,000 of the bonds be advertised
for sale for this year, the money to
be expended in building extensions
on all of the main roads leading out
of the city. The details of the distribution
will be arranged later.

The bonds have been sold twice,
both purchasers bringing forward
so many technical objections and requirements
that the court canceled the contracts.
They brought a premium of more than 7 per cent.

WILL PROBATED.

Mrs. Bradley Left Estate to
Granddaughters and
Son.

The will of the late Mrs. Lou A.
Bradley was probated Tuesday. To
her three granddaughters, Anita,
Verna and Dena May Brackrogge,
she bequeathed all money, notes and
personal property. To her son, Earl
Bradley, she left a life interest in
her house and lot in the city and at
his death this property goes to her
grand children above mentioned.
Mr. G. C. Long was named as executor.
The will was made Nov. 16,

Climax Mills Smoke Stack
Put Up Yesterday.

Last week, just as the smoke stack
at the Climax Mills was within three
inches of being in position, one of
the timbers used in raising it gave
way and the whole thing fell to the
ground, breaking the stack in three
pieces. Since then the men have
been busy and got everything ready
for a second raising. The effort
was successful and the stack went
up all right yesterday. It will be
several days before steam is turned
on and the big engine put to work.

STANLEY BASSETT

Reported to Have Been Ap-
pointed to a Cadetship.

A report was current yesterday
that Lieut. Stanley Bassett, the son
of Maj. E. H. Bassett, had been ap-
pointed to a cadetship at West Point.
Investigation failed to verify the
rumor, but there is good reason to
believe that it is true. As Maj. and
Lieut. Bassett had not returned
from Jamestown yesterday, nothing
definite could be learned. Lieut.
Bassett, as is well known, has been
wanting to get into the U. S. Army
since he was old enough to know
what a soldier's life is and his many
friends are hopeful that his ambition
is to be realized.

State College of Kentucky,

LEXINGTON, KENTUCKY.

THE STATE COLLEGE of Kentucky offers the following courses, namely, Agricultural, Mechanical, Engineering, Civil Engineering, Mining Engineering, Electrical Engineering, Normal School, Classical and seven Scientific courses, each of which extends over four years and leads to the Bachelor's degree. Each course is organized under a separate faculty. The general faculty, consisting of professors, assistant professors and instructors, numbers over fifty. County appointees receive free tuition, privilege of residence in dormitories, fuel and lights and traveling expenses, if they remain ten consecutive months, or one collegiate year. The laboratories and museums are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

Graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates last year was 901. Each department has a specialist at its head, with the necessary number of assistants.

Summer schools are provided for in Pedagogy, Engineering, and Instruction in Science and the Liberal Arts. The young women find an excellent home, with board and lodging in Patterson Hall, which is well equipped with all modern conveniences, bath-rooms, hall for physical culture, at \$3.00 per week. All the courses of study in the College are open to young women upon identical conditions with those applying to males.

The attendance upon the Normal School in connection with the Department of Education last year more than doubled that of any preceding year.

Three new buildings, namely, one for the department of Education, one for Agricultural Science, and a Library Hall, are in process of erection and will be completed early in the next collegiate year.

MIDSHIPMAN

GOLDTHWAITE.

CONTINUED FROM FIRST PAGE.

In Pensacola, Fla. All were notified and those at a distance started home at once. Faulkner was the oldest of the family and the fondest hopes of his mother were centered in him. She encouraged his ambition and with a mother's pride and devotion believed that he was entering upon a bright career. When a mere boy he was appointed by Congressman Allen to West Point, but failed in the second year's examination for lack of proper preparation in one branch. Nothing daunting, he began a thorough course of study in the Polytechnic Institute of Boston, though the prospect for reappointment seemed anything but bright, as there would be no vacancy for several years. In the closing days of Congress in March 1903 a bill was passed that gave Congressman Allen an extra naval appointment and his friends secured this for him, in a hot contest in which Jas. T. Cruse, of Owensboro, was his rival. Cruse soon afterwards got an appointment from Nebraska and they entered the

Academy together, became fast friends and were together in the terrible experience that killed one and terribly injured the other. Young Goldthwaite's ambition was realized only a few days before he reached the age limit. He passed all of his examinations with high honors and was so proficient that he graduated ahead of his class in February. He made his last visit home in February and reported for duty March 1 for a three years' cruise. He was under order to go with his ship around the Horn and the new officers were being familiarized with gun practice when the promising career of the young Kentuckian was so suddenly ended.

Too much cannot be said in praise of Faulkner Goldthwaite. He was so universally esteemed that the whole city took pride in his success. He was noble, brave, patriotic and true. A Christian from his childhood the personal side of his character was all that could be expected of any young man. He was devoted to his chosen work, was ambitious to serve his country. Of unusual strength of character, of a high order of intellect, a fine specimen of physical development, trained for six years for both army and navy, it is doubtful if any young man in his class entered the service with brighter prospects.

Hopkinsville has turned out few young men upon whom more just praise could be bestowed.

The body is expected to arrive by the I. C. Railroad at 3:25 or 6:15 this afternoon, and the plan is to go at once to the cemetery, and Rev. M. A. Jenkins will hold brief services at the grave. The remains left Chelsea, Mass., Tuesday night. Mrs. Goldthwaite and her three children were all at Mr. Luther Hubbard's, near the city, yesterday.

Recent disasters on ships of the United States navy:

Battleship Maine, blown up in Havana harbor March 15, 1898: 242 killed.

Battleship Iowa, explosion of gun April 9, 1903: 3 killed, 5 injured.

Cruiser Olympia, explosion of barrel of alcohol at Norfolk, Va., September 12, 1903: 2 killed, 9 injured.

Battleship Massachusetts, explosion of fireroom at Philadelphia, Decem-

ber 15, 1904: 3 killed, 4 injured.

Battleship Missouri, explosion of powder off Pensacola, April 18, 1904: 33 killed, 5 injured.

Gunboat Bennington, boiler exploded at San Diego, July 21, 1905: 62 killed.

Battleship Kearsage, powder explosion off coast of Cuba, April 14, 1906: 7 killed, 14 injured.

Also near Jamestown, June, 1907 6 officers and 5 sailors drowned.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at R. C. Hardwick's drug store. 50c and \$1.00. Trial bottle free.

VETERAN MINISTER

Celebrates 64th Anniversary of His Ordination.

Rev. J. U. Spurlin preached at Pleasant Hill Baptist church, near Carl, Sunday, in commemoration of the 64th anniversary of his ordination as a minister, July 1543. The old veteran preached a fine sermon from the subject, "Let Your Light Shine." During his long ministry he has baptized more than 5,000 converts. He is the last survivor of four ministers licensed by Pleasant Hill church from 1838 to 1845, all of whom preached more than 50 years. The others were Revs. N. Lacy, A. W. Meacham and Calvin Meacham. "Bro. Spurlin," as he is called by everybody, is now 83 years old, hale and vigorous. The crowd present Sunday was so great that the benches were moved outside and the service was held in the open air.

A liberal collection was taken up for him.

Passed Resolutions.

Beverly, Ky., July 13th, 1907. At a regular meeting of Forest Lodge No. 308, F. & A. M., held this day, the following resolutions were unanimously adopted:

WHEREAS, it has pleased Almighty God, Grand Master of the Universe, to call from labor to rest, our beloved brother, Iredell P. Davie, past master of this lodge,

THEREFORE BE IT RESOLVED, that while we bow to the will of Him who doeth all things well, we deplore the loss of a most zealous and efficient worker, and fine and worthy brother and a just and upright mason. His column is broken and the brethren mourn.

RESOLVED, that the community has been bereft of a most useful citizen, loyal friend and good neighbor, whose exemplary life and character, sterling qualities, and charity in thought, word and deed won him universal esteem.

RESOLVED, that the heartfelt sympathy of this lodge be hereby tendered the bereaved family, and that we commend them to the care and guidance of the God of the widow and the Father of the fatherless.

RESOLVED, that a copy of these resolutions be furnished the sorrowing family, that they be spread upon the minutes of this lodge, a copy furnished the Masonic Home Journal, and county papers for publication, and the usual badge of mourning be worn for thirty days.

To those who know Bro. Davie, words of eulogy are superfluous, "Verses on tombstones are idly spent; The loving character is the monument."

CONTRACTS FOR NEW BRIDGES.

Modern Steel Structure On

North Main to Cost \$5,000.

WORK TO BE PUSHED.

Iron Footbridge and Railings to Replace Stone Copings On West 7th Street.

The special bridge committee of the city council Tuesday closed the contracts for rebuilding the stone bridge on North Main street and for improving the one on West Seventh street. The two bridges, it is estimated, will cost about \$7,000 and the fiscal court has made an appropriation covering \$1,000 of the amount. The Seventh street bridge will have the stone copings taken off and substantial iron railings put on both sides, thus widening the pavements about five feet. In addition an iron footbridge will be built on the south side nine feet wide and with an arrangement with the I. C. Railroad the approach, back to Water street, will be widened nine feet. This work is estimated to cost \$2,000. The iron bridge work contract was let to The Champion Bridge Co., Wilmington, Ohio, for \$1,500. The masonry to the Oriental Construction Co., which it is estimated will cost \$500.

The North Main street bridge will be rebuilt entirely. The center pier will be taken out and the abutments widened and rebuilt for a modern steel and concrete bridge. The contract for the bridge was let to The Vincennes Bridge Co. for \$3,315. The masonry contract to The Machan Construction Co. This branch of the work is estimated to cost about \$1,700. In each case the contracts were let to the lowest and best bidders.

The North bridge is to be done by November 1, and the West by November 5.

It is stated that Dr. James has already given assurance that he would accept the call if it should be unanimous.

Railroad Men Wanted

The demand for telegraph operators was never as great as right now. The Bowling Green Business University has turned out more operators than any other school south of the Ohio River, and still the demand upon it is as great as ever. Its operators are wanted by twenty-three railroads. This is conclusive evidence that the training it gives is satisfactory. Young men desiring information concerning telegraphy positions should write to the Business University at Bowling Green, Ky. Bookkeepers and stenographers are in equally as great demand.

Hershel Diuguid, of Memphis, Tenn., is here to spend his two weeks' vacation with his parents, Mr. and Mrs. W. A. Diuguid. Mr. Diuguid is connected with a shoe company at Memphis, having gone to that place about five months ago.

Mr. and Mrs. Carl C. Moore, of Memphis, who spent a week with the family of Mr. A. Dawson, near Roaring Spring, are now visiting the family of Eld. T. D. Moore, in this city.

The first of a series of Germans (chaperoned) will be given tomorrow, Friday evening, under the direction of Mr. Allan de C. Mueller, who is conducting a dancing class here. The music will be furnished by the Hopkinsville orchestra, and much pleasure is being anticipated by those who have cards to attend.

GREAT SUCCESS.

Was The "Passion Play" at Opera House.

The Opera House theaterium has had the biggest run of the season with the noted "Passion Play" pictures this week. This series began Monday and closed last night. At the night shows standing room was at a premium time after time and in three days thousands saw the pictures, which are illustrative of the life and crucifixion of Christ. This play was a great hit, but other fine pictures will be seen from day to day. Those for the rest of this week are especially interesting.

BUSY IN TENNESSEE.

Night Riders Destroy Tobacco Crops Because of Too Large Acreage.

Clarksville, Tenn., July 12.—Night riders Saturday night visited the tobacco field of G. N. Gentry, of St. Bethlehem and destroyed four acres of tobacco. He has been a member of the association and has held his crop through the regular channels. The only cause for the action so far as can be guessed is that he had planted about four acres more than the schedule allows.

The same night Ross, and Reuben Belamy were visited and two acres destroyed for Ross and one for Reuben. These men bought a lot of tobacco last year and while they sold it through the association this is supposed to have been the cause of their disturbance.

IMPORTANT MEETING

Of The American Society of Equity.

The A. S. of E. held an important meeting at Bluff Springs last Saturday. This was the regular quarterly July meeting and the first meeting since the call meeting to reorganize the county union since last April.

J. M. Rice, as president pro tem, called the meeting to order. Prayer was offered by C. C. Patterson, county organizer. The first business was to adopt county by-laws and constitution. After discussing the matter clauses were struck out that would conflict with the district union and 500 copies ordered printed.

Esq. H. C. Hasley, chairman of district tobacco growers, then made a motion, as the district was well represented, we would hold an executive session to adopt by-laws and constitution for the district tobacco growers' union, embracing Todd and Christian counties.

This motion was carried and Chairman J. M. Rice appointed Esquire Hasley, J. A. Hale and F. B. McCown on by-laws and constitution, and requested them to report at a call meeting at Kirkmanville the 27th of this month.

At the afternoon session short speeches were made by several members. It was very easy to understand that the Society of Equity is clear of any violence, and any retaliations, such as sneaking out in the dark, burning barns and scraping plant beds. And we feel safe in saying that the active members of this society should be let alone. We were raised up to meet men face to face. This tobacco will be sold on open market, prized and warehoused separate and independent of any other tobacco.

F. B. McCOWN,
Gen. Org. for the A. S. of E.

Counsel From the South.

"I want to give some valuable advice to those who suffer with lame back and kidney trouble," says J. R. Blankenship, of Beck, Tenn. "I have proved to an absolute certainty that Electric Bitters will positively cure this distressing condition. The first bottle gave me great relief and after taking a few more bottles, I was completely cured; so completely that it becomes a pleasure to recommend this great remedy." Sold under guarantee at Hardwick's drug store. Price 50c.

GOING HIGHER.

Mr. F. B. McCown Appointed General Organizer For State.

2.06

The fundamental principle of addition is that 1 and 1—2. Up-to-date this has never been discredited. But here we show proof that such is not always the case.

For instance a dollar deposited this morning, and another one this afternoon on the same account, ordinarily would at the end of the year mean \$2.00. However, the sum on deposit one year from to-day would be \$2.06.
